

European Regional Economic Forecasts

ESSENTIAL INSIGHT INTO THE OUTLOOK FOR EUROPE'S REGIONAL ECONOMIES

European Regional Economic Forecasts from Moody's Analytics provide consistent core measures for comparability across more than 2,000 regions in Europe, including the Nomenclature of Territorial Units for Statistics (NUTS) regions 1, 2 and 3 and metropolitan areas defined by Eurostat. Offering an unmatched level of detail, consistency and update frequency, our forecasts provide essential insight into the current and expected conditions of Europe's regional economies.

COMPREHENSIVE ECONOMIC VARIABLES

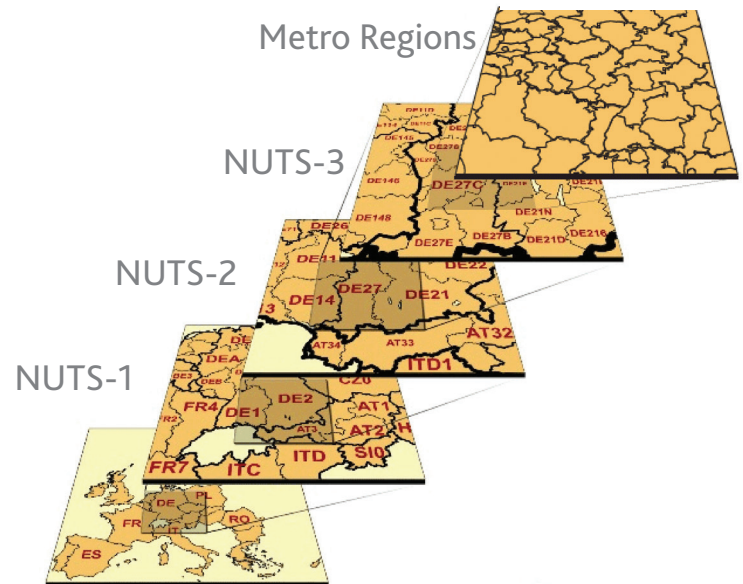

- » Comprehensive coverage of all key indicators that drive regional economies.
- » Using national and local data sources, forecasts include additional variables like housing supply and pricing not offered by other providers.
- » Concepts include: population, labor force survey, employment, output, compensation, personal income (household, population), disposable income, retail sales, housing (permits, starts, pricing).
- » Industrial detail for employment and output in 20 sectors.

BROAD GEOGRAPHIC COVERAGE

- » Data and forecasts for more than 2,000 regions in the EU28 (excluding Croatia), Norway, Switzerland, and Turkey.
- » Coverage of NUTS 1, 2 and 3 regions and metropolitan areas defined by Eurostat.
- » Unparalleled consistency across time and geography, enabling comparison across countries, regions and cities.

MOST TIMELY & ACCURATE DATA

- » Forecasts based on data from several hundred country-specific sources that is one to three years more current than competitors who rely on multi-national sources.
- » Databases updated in real time as the data is made available by original sources.
- » Rigorous quality checking by our global team of more than 80 economists and 30 data specialists.

NUTS-1, NUTS-2, NUTS-3 – European Commission/EUROSTAT
Metro Regions – Moody's Analytics, Inc.

MOST UP-TO-DATE FORECASTS

- » 10-year forecasts, with quarterly periodicity.
- » Incorporate the most current available data and refreshed outlooks.
- » Forecasts updated monthly while most other providers update less frequently.
- » Expert assumptions from skilled economists with more than 20 years of experience understanding regional economies.
